Malayalam

Hindi

English

Tamil

## AREA OF PROFICIENCY

Burp Suit | Python | NMAP

Web application Pentesting

Bug bounty hunting | Wireshark

Metasploit

## INTERESTS

Travel • Photography • Sports

## PROJECTS

### ScanIT

Developed a Python-based network scanning tool with a strong focus on user interactivity, showcasing my software development and user experience design skills

### C Bot

A telegram bot which capable of hacking someone's camera and other devices

### Auto PDF

Created and executed a tool for systematic downloading of PDF catalogs, optimizing access to crucial documents without requiring immediate online viewing. Demonstrated expertise in improving efficiency in document retrieval processes

### Wifi bluster

Proficient in the development of Python scripts for automating Wi-Fi security assessments, demonstrating expertise in optimizing testing and analysis procedures. Adept at enhancing overall efficiency and ensuring the establishment of robust network security measures.

### GadiCart

Developed a C2C (Consumer-to-Consumer) business platform web application, showcasing proficiency in web development and creating a user-friendly online marketplace.

### Shoe Hub

Engineered a cutting-edge e-commerce web application, leveraging agile development methodologies and responsive design principles; optimized user experience resulting in a 25% increase in average order value and 20% decrease in cart abandonment rate.

## SKILLS

Leadership

Time management

Project management

Critical thinking

Flexibility
